SUMMARY

Driven University of San Carlos student and aspiring Application Developer with hands-on experience building full-stack websites and applications. Experienced in developing both frontend interfaces and backend functionality through numerous projects, with a strong interest in creating practical, user-focused software solutions. Passionate about learning new technologies, solving problems through code, and eager to learn from experienced professionals, expand my technical skills, and gain real-world industry experience as I grow into a well-rounded software developer.

EXPERIENCE

Accounts Receivable Assistant <i>E.H Connection – iGrey Connect — Cebu, Philippines</i> Verify customer payments and reference numbers, then record and maintain accurate payment data in financial tracking sheets for management review.	Present
Sales & Cash Reconciliation Assistant <i>E.H Internet Cafe — Cebu, Philippines</i> Count daily sales and reconcile them against staff cash remittances, reporting discrepancies and maintaining accurate financial records for owner review.	Present

SELECTED PROJECTS

Schedly — Trip Planning App <i>Full-stack developer</i> - Built a mobile trip-planning app for organizing activities, tracking budgets, and setting departure reminders. - Worked across the full stack: Flutter frontend with Supabase for backend, auth, and data; added map integration (flutter_map, OpenStreetMap) and local push notifications.	Mobile App
Personal Best Records — Running Tracker <i>Full-stack developer, solo project</i> First-ever website project, built to practice CRUD operations, database management, authentication, and deployment; still under active development.	Web App
Financy — Allowance & Budget Tracker <i>Backend developer, team project</i> Built a website for tracking allowance and personal budgeting; worked on the backend as part of a team.	Web App

EDUCATION

University of San Carlos <i>BS Information Technology — Cebu, Philippines</i> Dean's Lister — GPA 1.4 (1.0 is the highest).
